else is going on. Lower dentures can be a challenge for most people when it comes to chewing.

That is why over ten years ago I went for special training to learn how to make lower dentures that stay in place. Many times I can use the existing denture to do this.

Snap in dentures make it possible for denture wearers to chew and speak with comfort and confidence again.

At **TODAY'S DENTAL CARE** the focus is on you, your health and your comfort. If you are having dental problems or questions, please call **345-8333 now** to receive a **complimentary consultation**. Q: I am having problems chewing and speaking with my lower denture. They seem to fit my gums, but they move around. Do I need another relines?

A: Relines can help fill in gaps under dentures, but it sounds like something
