

Dr. Ron Dillow

Q: Is it safe for me to go to the dentist while I am pregnant?

A: Maintaining your oral health is even more important during pregnancy.

Gingivitis and gum disease

Ask The Dentist

during pregnancy have been linked to low birth weight and premature delivery. Changes in diet and morning sickness both increase the risk for decay.

Regular visits and good home care can prevent the need for emergency treatment. While anesthetic and x-rays have been proven safe with precautions, I always confer with the obstetrician prior to doing anything beyond checkups and cleanings.

At **TODAY'S DENTAL CARE** the focus is on you, your health and your comfort. If you are having dental problems or questions, please call **345-8333** now to receive a **complimentary consultation**.
