

Dr. Ron Dillow

Q: I lost a front tooth in an accident. How fast can I get a tooth to replace it?

A: Losing a front tooth can be a devastating experience. That is why I have gotten extra training in order to get your smile back in shape very quickly.

Ask The Dentist

Depending on what kind of long term replacement you want, I can place a tooth back in to replace the missing one the same day you arrive at the office.

You will have the choice of an implant, a stay in bridge or a removable partial as long term options. These can be discussed in detail prior to getting started.
